## **HOUSING ASSESSMENT PROGRAM (HAP)**

If you or someone you know is experiencing a housing crisis, please contact 2-1-1 (or 1-800-887-1107). The staff at 2-1-1 will talk to you about your current situation and discuss options for assistance and

support. Depending on your need, one of these options may be the Housing Assessment Program (HAP) and 2-1-1 will refer you.

HAP is a

community-driven resource rooted in a Housing First, strength-based approach. We are here to connect people who are literally homeless or at imminent risk of homelessness to the best available housing resource in

the community. We do this by completing assessments to better understand the needs of each person or family and then pair them with a housing service provider from the community, known as

Housing Resource Specialists. HRS from throughout the community

work with HAP to connect with those who need assistance with

housing. That way, anyone experiencing homelessness needs to only start at one place. Much of our screening and assessment process can be completed over the phone. The conversation will include

many questions about you, your family, or anyone else that is experiencing the crisis with you. These questions can take some time to complete but are required for any potential access to our community's housing resources. We may also ask for you and your family to provide certain documents or other items that are also required for eligibility. Sometimes there is not a resource available, even if you or your family qualifies. If there is no immediate resource available, our staff will work with you on other ideas to keep you and your family safe until a resource becomes available. We may ask additional questions to help you determine what is the next best step for you and your family. Program Hours: Office hours are M-F 8:30-4:30, phone hours are M-Th 8:30-5 and F 9:30-4.

## AREA AGENCY ON AGING

<https://www.aaawm.org/>

Area Agencies on Aging are a nationwide network of nonprofit agencies created by Congress to be one-stop shops with information about programs, services and housing options. AAAs were created in 1974 by the federal Older Americans Act with the mission of creating home and community-based services to maximize the independence and dignity of older adults. AAAs work hand-in-hand with a statewide network of over 1,200 service providers including county commissions on aging, senior centers and home health agencies. They also work hand-in-hand with the state agency that oversees aging programs – the [Aging and Adult Services Agency](#) (AASA). AASA, AAAs, and local service providers are called Michigan's "aging network."
